

Venue:

Mountain State Fat Bike Champs #FatTiresAndStoutBeers

Whitegrass Ski Touring Center is opening its doors to us silly people that choose fat bikes over skis. With over thirty years in business, WG knows snow. It's got a relaxed, eclectic vibe and everything revolves around the cozy, packed ski lodge. WG is not open to fat biking the rest of the year. Btw- we all ski the trees too.

Course:

The course will stick to a mix of rolling lower trails this year. 95% of the course will be groomed, and non groomed course (if applicable) will be gravity aided. Course is not available to pre-ride.

Sunday February 4th, 2018 (Super Bowl Sunday)

What the heck are we doing?

This is a timed, XC style fat bike race held on amazing XC ski trails at our local Nordic center with a staff of groomers making sure we have an amazing, groomed surface of that all important white stuff to ride on. The first time I rode a rental fat bike down double trouble (a great groomed trail there), I was sold on why fat bikes are here to stay. I bought one the next day. I want to share that feeling with you.
